

### **Susanne Coleman Biography for 2015 EWMA conference**

Susanne Coleman qualified as a registered general nurse in 1991 and worked for the NHS till 2008. She worked clinically in acute elderly care medicine, held senior nursing roles to develop clinical practice in the acute sector and was a clinical governance manager and contract manager in primary care. Susanne also has experience of managing a disabled living centre and mobility centre in the voluntary sector.

Since October 2008 Susanne has worked as a research Programme Manager at CTRU, University of Leeds, co-ordinating pressure ulcer research. Susanne led the risk assessment work package of the NIHR PURPOSE programme to develop a new evidenced-based decision tool, PURPOSE T and recently completed a PhD.
